

## WEEKEND ACTIVITY

Dear parents,

### Activity 1

Today the children are going to learn about different sounds. You can make the child sit at a place by closing their eyes and ask them to guess the sound. The sound could be of clapping, falling of bowl, sneezing ,toys etc.

Once you are done with this make the child see a video linked below on different sounds of animals.

### Activity 2:

To reinforce the red color show them the video linked below on things which are red in colour.

You can show them live things which are available at home in red color as well the child today can dressed up in red color clothes.

### Activity 3 :

Let's create a memory frame this weekend. The activity is really simple. All you need would be paint colors and a paper. I really would love to see your memory frame which would be hash tagged #lockdown2020
